

If you are interested in Square Care Medical & Pharmacy administering flu/pneumonia vaccines at your facility, please return this letter with the attached informed consent completed for each client via email within 2 weeks. Flu/Pneumonia shots are available through Original Medicare at no charge. We can bill private insurances or Medicare Advantage Plans but there may be an applicable co-pay. Please check with your client's pharmacy insurance carrier if you have any questions on his or her copay.

If your client **does not** have insurance or his/her insurance **does not** cover flu vaccination, our prices are as followed:

- |                       |                |
|-----------------------|----------------|
| • Flu shots           | \$45.00        |
| • High Dose flu shots | \$80.00        |
| • Pneumonia shots     | \$135.00       |
| • Pevnar shots        | \$230.00       |
| • Other shots         | Please inquire |

We cannot bill Original Medicare or Medicare Advantages plans for Hospice patients. If you have a hospice patient, the only form of payment we can accept is cash.

CDC currently recommends people 65 and over get both Pneumovax 23 and Pevnar 13 vaccines. Some patients under 65 with certain medical conditions may qualify. Please inquire with the pharmacy. Please only check one pneumonia box as both vaccines cannot be given at the same time. If your clients are 65 and over and have ever received either of these pneumonia vaccines, they no longer need the pneumonia shots per CDC recommendations.

Please have payment ready on the day of your flu shot visitation. You may also prepay by calling our pharmacy up to 1 day prior to your visitation. We are not able to include the cost of vaccination on your client's AR account with the pharmacy.
